REMO IN PROGRESS

The previous project phase was highlighted by intense work put into the ISO 9001 coherent quality process descriptions, the platform development and the considerations for the installation of the network which will be followed by the first general assembly soon. Also the first multiplier event already took place in Kranj, Slovenia with two more in Austria soon to come.

THIRD PROJECT MEETING

The third transnational project meeting took place in Tolmezzo, Italy where the consortium was gathering from the 17th until the 18th of November 2015. In the agenda next to other important issues, the focus was put on the work concerning process descriptions as well as the platform.

PROCESS DESCRIPTIONS

In order to improve quality for transnational mobility stays, the REMO

consortium was working on ISO 9001 coherent quality process descriptions. Giving a step-by-step overview following the chronological order of tasks referring to connected responsibilities as well as recommended documents for the use, these descriptions are finalised already and will be available on the REMO platform as well as on the webpage in English as well as in all partner languages including German, Croatian, Hungarian, Italian, Romanian and Slovenian.

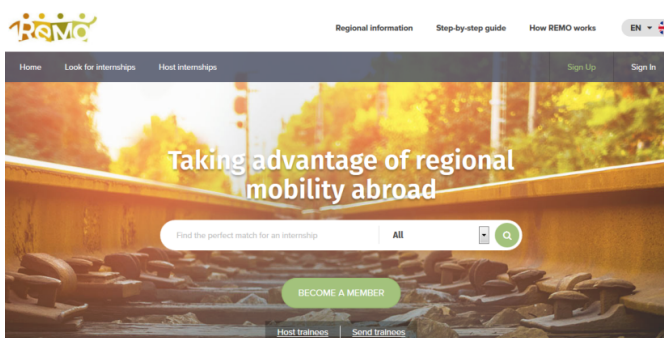

GET INVOLVED INTO REMO NETWORK

& REGISTER ON THE PLATFORM!

The platform is in the final phase of its development and will soon be publicly available via www.remonetwork.eu,

enabling anyone involved into VET mobility actions to register for free and set up cooperation for initial VET learners.

Do you want to learn more about the REMO project? Visit our webpage www.remoproject.eu and get in contact with us.
